Petition Signatures

A petition for the establishment of a start-up charter school must be signed by either of the following: (Education Code 47605)

1. A number of parents/guardians equivalent to at least one-half of the number of students that the charter school estimates will enroll in the school for its first year of operation.

2. A number of teachers equivalent to at least one-half of the total number of teachers that the charter school estimates will be employed at the school during its first year of operation.

If the charter petition calls for an existing public school to be converted to a charter school, the petition must be signed by at least 50 percent of the permanent status teachers currently employed at the school. (Education Code 47605)

(cf. 4116 - Probationary/Permanent Status)

Any petition circulated to collect signatures shall include a prominent statement explaining that a parent/guardian's signature means that the parent/guardian is meaningfully interested in having a child attend the charter school or, in the case of a teacher's signature, that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition. (Education Code 47605)

Advisory Committee

The Superintendent or designee may establish a staff advisory committee to evaluate the completeness of a charter petition based on the requirements in Education Code 47605 and to identify any concerns that should be addressed by the petitioners.

(cf. 2230 - Representative and Deliberative Groups)

Components of Charter Petition

The charter petition shall include affirmations that the charter school will be nonsectarian in its programs, admission policies, employment practices, and operations; will not charge tuition; and
will not discriminate against a student on the basis of characteristics listed in Education Code 220. The petition shall also contain reasonably comprehensive descriptions of: (Education Code 47605)

1. The educational program of the proposed school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling students to become self-motivated, competent, and lifelong learners.

Education Code 47605 requires the charter petition to include annual goals for all students and for each numerically significant subgroup of students, and specific actions to achieve those goals as described in Education Code 52060. Pursuant to Education Code 52052, numerically significant subgroups include ethnic subgroups, socioeconomically disadvantaged students, English learners, students with disabilities, foster youth, and homeless students, when there are at least 30 students in the subgroup (or at least 15 foster youth or homeless students) in the school.

Education Code 47605 requires that these annual goals be aligned with eight state priorities related to (1) the degree to which teachers are appropriately assigned and fully credentialed, students have sufficient access to standards-based instructional materials, and facilities are maintained in good repair; (2) implementation of and student access to state academic content and performance standards; (3) parent/guardian involvement and family engagement; (4) student achievement; (5) student engagement; (6) school climate; (7) student access to and enrollment in a broad course of study, including programs and services provided to benefit low-income students, English learners, and/or foster youth (i.e., "unduplicated students" for purposes of the local control funding formula); and (8) student outcomes in the specified course of study. See BP/AR 0460 - Local Control and Accountability Plan.

The petition shall include a description of the charter school's annual goals for all students and for each numerically significant subgroup of students identified pursuant to Education Code 52052, including ethnic subgroups, socioeconomically disadvantaged students, and English learners, students with disabilities, foster youth, and homeless students. These goals shall be aligned with the state priorities listed in Education Code 52060 that apply to the grade levels served or the nature of the program operated by the charter school. The petition also shall describe specific annual actions to achieve those goals. The petition may identify additional priorities established for the proposed school, goals aligned with those priorities, and specific annual actions to achieve those goals.

(cf. 0420.41 - Charter School Oversight)
(cf. 0460 - Local Control and Accountability Plan)

If the proposed charter school will serve high school students, the petition shall describe the manner in which the school will inform parents/guardians about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance
requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable, and courses approved by the University of California or the California State University as creditable under the "a-g" admissions criteria may be considered to meet college entrance requirements.

2. The measurable student outcomes identified for use by the charter school. Student outcomes means the extent to which all students of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program, including outcomes that address increases in student academic achievement both schoolwide and for each numerically significant subgroup of students served by the charter school. The student outcomes shall align with the state priorities identified in Education Code 52060 that apply for the grade levels served or the nature of the program operated by the charter school.

3. The method by which student progress in meeting the identified student outcomes is to be measured. To the extent practicable, the method for measuring student outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.

(cf. 0510 - School Accountability Report Card)

4. The governance structure of the charter school, including, but not limited to, the process to be followed by the school to ensure parent/guardian involvement.

5. The qualifications to be met by individuals to be employed by the charter school. AB 1747 (Ch. 806, Statutes of 2018) amended Education Code 47605 to add a requirement that the charter petition include provisions for the development and annual update of a school safety plan.

6. The procedures that the charter school will follow to ensure the health and safety of students and staff, including the following requirements:

a. Each charter school employee shall furnish the school with a criminal record summary as described in Education Code 44237.

b. The charter school shall develop a school safety plan which includes the topics listed in Education Code 32282(a)(2)(A)-(H) and procedures for conducting tactical responses to criminal incidents.

c. The charter school's safety plan shall be reviewed and updated by March 1 each year.

7. The means by which the charter school will achieve a racial and ethnic balance among its students that is reflective of the general population residing within the district's territorial jurisdiction.
Pursuant to Education Code 47605, when the number of students who wish to attend the charter school exceeds the school's capacity, attendance must be determined by a public random drawing, with admission preference extending to students who currently attend the charter school and students who reside in the district. Education Code 47605 provides that admission preferences may also include, but are not limited to, siblings of students admitted or attending the charter school and children of the school's teachers, staff, and founders identified in the initial charter. Education Code 47605 requires that the priority order for preference be determined in the charter petition as provided below.***

8. The charter school's student admission policy. The petition shall, in accordance with Education Code 47605(d), specify procedures for determining enrollment when the number of applicants exceeds the school's capacity, including requirements for the use of a public random drawing, admission preferences, and priority order of preferences as required by law and subject to Governing Board approval.

9. The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the Board's satisfaction.

10. The procedures by which students can be suspended or expelled for disciplinary reasons or otherwise involuntarily removed for any reason, including an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements as specified in Education Code 47605(b). Such procedures shall also include processes by which the charter school will notify the superintendent of a district and request to be notified by a district about a student when the circumstances specified in Education Code 47605(d) exist.

11. The manner by which staff members of the charter school will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

12. The public school attendance alternatives for students residing within the district who choose to not attend the charter school.

13. A description of the rights of any district employee upon leaving district employment to work in the charter school and of any rights of return to the district after employment at the charter school.

14. The procedures to be followed by the charter school and the Board to resolve disputes relating to charter provisions.

15. A declaration as to whether or not the charter school will be deemed the exclusive public school employer of the school's employees for purposes of collective bargaining under Government Code 3540-3549.3.
16. Consistent with 5 CCR 11962, the procedures to be used if the charter school closes, including, but not limited to:

a. Designation of a responsible entity to conduct closure-related activities

b. Notification to parents/guardians, the Board, the county office of education, the special education local plan area in which the charter school participates, the retirement systems in which the school's employees participate, and the California Department of Education, providing at least the following information:

   (1) The effective date of the closure

   (2) The name(s) and contact information of the person(s) to whom reasonable inquiries may be made regarding the closure

   (3) The students' districts of residence

   (4) The manner in which parents/guardians may obtain copies of student records, including specific information on completed courses and credits that meet graduation requirements

c. Provision of a list of students at each grade level, the classes they have completed, and their districts of residence to the responsible entity designated in accordance with item #16a above

d. Transfer and maintenance of all student records, all state assessment results, and any special education records to the custody of the responsible entity designated in accordance with item #16a above, except for records and/or assessment results that the charter may require to be transferred to a different entity

e. Transfer and maintenance of personnel records in accordance with applicable law

f. Completion of an independent final audit within six months after the closure of the charter school that includes an accounting of all financial assets and liabilities pursuant to 5 CCR 11962 and an assessment of the disposition of any restricted funds received by or due to the school

g. Disposal of any net assets remaining after all liabilities of the charter school have been paid or otherwise addressed pursuant to 5 CCR 11962

h. Completion and filing of any annual reports required pursuant to Education Code 47604.33

i. Identification of funding for the activities identified in item #16a-h above

Education Code 47605 requires that petitioners provide to the Governing Board the information listed in items #1-4 below. The Board may require additional information, such as, a school
calendar, information regarding transportation arrangements, staff development plans, assurances that the school will provide appropriate services for English language learners and students with disabilities, or any other information that will assist the Board in understanding the proposal.

Charter school petitioners shall provide information to the Board regarding the proposed operation and potential effects of the school, including, but not limited to: (Education Code 47605)

1. The facilities to be used by the charter school, including where the school intends to locate. (cf. 7160 - Charter School Facilities)

2. The manner in which administrative services of the charter school are to be provided

3. Potential civil liability effects, if any, upon the charter school and district

4. Financial statements that include a proposed first-year operational budget, including start-up costs and cash-flow and financial projections for the first three years of operation

Location of Charter School

Unless otherwise exempted by law, the charter petition shall identify a single charter school that will operate within the geographic boundaries of the district. A charter school may propose to operate at multiple sites within the district as long as each location is identified in the petition. (Education Code 47605, 47605.1)

A charter school that is unable to locate within the district's jurisdictional boundaries may establish one site outside district boundaries but within the county, provided that: (Education Code 47605, 47605.1)

1. The district is notified prior to approval of the petition.

2. The County Superintendent of Schools and Superintendent of Public Instruction are notified before the charter school begins operations.

3. The charter school has attempted to locate a single site or facility to house the entire program but such a facility or site is unavailable in the area in which the school chooses to locate, or the site is needed for temporary use during a construction or expansion project.

A charter school may establish and locate a resource center, meeting space, or other satellite facility in an adjacent county if both of the following conditions are met: (Education Code 47605.1)

1. The facility is used exclusively for the educational support of students who are enrolled in nonclassroom-based independent study of the charter school.
2. The charter school provides its primary educational services in, and a majority of the students it serves are residents of, the county in which the school is authorized.

BUCKEYE UNION SCHOOL DISTRICT
ADOPTED: EL DORADO HILLS, CALIFORNIA
The Governing Board recognizes that charter schools may assist the district in offering diverse learning opportunities for students. In considering any petition to establish a charter school within the district, the Board shall give thoughtful consideration to the potential of the charter school to provide students with a high-quality education that enables them to achieve to their fullest potential.

The district shall not require any district student to attend the charter school nor shall it require any district employee to work at the charter school. (Education Code 47605)

One or more persons may submit a petition for a start-up charter school to be established within the district or for the conversion of an existing district school to a charter school. (Education Code 47605)

Any petition for a start-up charter school or conversion charter school shall include all components and signatures required by law and shall be submitted to the Board. The Superintendent or designee shall consult with legal counsel, as appropriate, regarding compliance of the charter petition with legal requirements.

The Superintendent or designee may work with charter school petitioners prior to the formal submission of the petition in order to ensure compliance of the petition with legal requirements. As needed, the Superintendent or designee may also meet with the petitioners to establish workable plans for technical assistance or contracted services which the district may provide to the proposed charter school.

Within 30 days of receiving a petition to establish a charter school, the Board shall hold a public hearing to determine the level of support for the petition by teachers, other employees of the district, and parents/guardians. (Education Code 47605)

(cf. 9320 - Meetings and Notices)

Within 60 days of receiving a petition, or within 90 days with mutual consent of the petitioners and the Board, the Board shall either approve or deny the request to establish the charter school. (Education Code 47605)

The approval or denial of a charter petition shall not be controlled by collective bargaining.
agreements nor subject to review or regulation by the Public Employment Relations Board.  
(Education Code 47611.5)

Approval of Petition

The Board shall approve the charter petition if doing so is consistent with sound educational practice. In granting charters, the Board shall give preference to petitions that demonstrate the capability to provide comprehensive learning experiences for students who are identified by the petitioner as academically low-achieving.  (Education Code 47605)

The Board shall verify that any approved charter contains adequate processes and measures for holding the school accountable for complying with applicable law, including Education Code 47604.1, and for fulfilling the terms of its charter. These shall include, but are not limited to, fiscal accountability systems, multiple measures for evaluating the educational program, including student outcomes aligned with state priorities as described in Education Code 52060, and regular reports to the Board.

(cf. 0420.41 - Charter School Oversight)

The Board may approve one or more memoranda of understanding to clarify the financial and operational agreements between the district and the charter school. Any such memorandum of understanding shall be annually reviewed by the Board and charter school governing body and amended as necessary.

The Board may initially grant a charter for a specified term not to exceed five years.  
(Education Code 47607)

(cf. 0420.42 - Charter School Renewal)  
(cf. 0420.43 - Charter School Revocation)

It shall be the responsibility of the petitioners to provide written notice of the Board's approval and a copy of the charter to the County Superintendent of Schools, the California Department of Education, and the State Board of Education (SBE).  (Education Code 47605)

Denial of Petition

The Board shall deny any charter petition that:

1. Proposes to operate a charter school as or by a for-profit corporation, a for-profit educational management organization, or a for-profit charter management organization (Education Code 47604)

2. Authorizes the conversion of a private school to a charter school   (Education Code 47602)
3. Proposes to serve students in a grade level that is not served by the district, unless the petition proposes to serve students in all the grade levels served by the district (Education Code 47605)

Any other charter petition shall be denied only if the Board makes written factual findings specific to the petition that one or more of the following conditions exist: (Education Code 47605)

1. The charter school presents an unsound educational program for the students to be enrolled in the charter school.

2. The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

3. The petition does not contain the number of signatures required.

4. The petition does not contain an affirmation of each of the conditions described in Education Code 47605(d).

5. The petition does not contain reasonably comprehensive descriptions of the charter provisions in Education Code 47605(b).

6. The petition does not contain a declaration as to whether or not the charter school shall be deemed the exclusive public school employer of the school's employees for purposes of collective bargaining pursuant to Government Code 3540-3549.3.

The Board shall not deny a petition based on the actual or potential costs of serving students with disabilities, nor shall it deny a petition solely because the charter school might enroll students with disabilities who reside outside the special education local plan area in which the district participates. (Education Code 47605.7, 47647)

(cf. 0430 - Comprehensive Local Plan for Special Education)

If the Board denies a petition, the petitioners may choose to submit the petition to the County Board of Education and, if then denied by the County Board, to SBE. (Education Code 47605)

The Superintendent may designate and train one or more employees to oversee and coordinate the district's environmental safety program(s). The responsibilities of the coordinator(s) shall include, but are not limited to, overseeing assessments of district facilities, recommending strategies for the prevention and mitigation of environmental health risks, ensuring effective implementation of environmental safety strategies, and reporting to the Superintendent regarding the district's progress in addressing environmental safety concerns.

(cf. 3510 - Green School Operations)

(cf. 7150 - Site Selection and Development)

Indoor Air Quality

In order to provide proper ventilation, humidity, and temperature in school facilities and to reduce indoor air contaminants, the following strategies shall be implemented:

1. Mechanically driven heating, ventilation, and air conditioning systems shall be operated continuously during working hours except under the circumstances specified in 8 CCR 5142. The systems shall be inspected at least annually and problems corrected within a reasonable time. Where the air supply is filtered, the filters shall be replaced or cleaned regularly to prevent significant reductions in airflow. Documentation of inspections, tests of ventilation rates, and maintenance shall be retained for at least five years. (8 CCR 5142-5143)
   (cf. 3580 - District Records)
   Staff shall ensure that airflow is not obstructed by the blocking of ventilators with posters, furniture, books, or other obstacles.

2. School facilities shall be regularly inspected for water damage, spills, leaks in plumbing and roofs, poor drainage, and improper ventilation so as to preclude the buildup of mold and mildew and prevent accidents due to unsafe conditions. Wet building materials and furnishings shall be dried within 48 hours if possible to prevent mold growth. When evidence of mold or mildew is found, maintenance staff shall locate and repair the source
of water intrusion and remove or clean moldy materials.

3. Exterior wall and foundation cracks and openings shall be sealed as soon as possible to minimize seepage of radon into buildings from surrounding soils.

4. Least toxic pest management practices shall be used to control and manage pests at school sites. (Education Code 17608-17614; Food and Agriculture Code 13182)
   
   (cf. 3514.2 - Integrated Pest Management)

5. A carbon monoxide detector or alarm shall be installed in all school buildings that contain a fuel-burning appliance, fireplace, or forced-air furnace, unless otherwise exempted by state law or regulations. The device or alarm shall be located in close proximity to the appliance in order to accurately detect and alert school personnel of any leakage of carbon monoxide. (24 CCR 915.1-915.7)

6. Schedules and practices for routine housekeeping and maintenance shall be designed to effectively reduce levels of dust, dirt, and debris. Plain water, soap and water, or low-emission cleaning products shall be used whenever possible. Aerosols, including air fresheners and other products containing ozone, shall be avoided to the extent possible.
   
   (cf. 5141.23 - Asthma Management)

7. Painting of school facilities and maintenance or repair activities that require the use of potentially harmful substances shall be limited to those times when school is not in session. Following any such activity, the facility shall be properly ventilated with adequate time allowed prior to reopening for use by any person.

8. Paints, adhesives, and solvents shall be used and stored in well-ventilated areas. These items shall be purchased in small quantities to avoid storage exposure.
   
   (cf. 3514.1 - Hazardous Substances)

9. To the extent possible, printing and duplicating equipment that may generate indoor air pollutants, such as methyl alcohol or ammonia, shall be placed in locations that are well ventilated and not frequented by students and staff.

10. The district's tobacco-free schools policy shall be consistently enforced in order to reduce the health risks caused by second-hand smoke.

   (cf. 3513.3 - Tobacco-Free Schools)

Outdoor Air Quality

The Superintendent or designee may coordinate with the local air resources control board and monitor local health advisories and outdoor air quality alerts to obtain forecasts of ozone levels,
Whenever a forecast indicates a significant health risk, the Superintendent or designee shall communicate with each principal so that outdoor activities, especially those requiring prolonged or heavy exertion, may be avoided, limited in duration, or modified as necessary for all persons or for persons who may be particularly susceptible to the health risk involved.

(cf. 3516 - Emergencies and Disaster Preparedness Plan)
(cf. 3516.5 - Emergency Schedules)
(cf. 5141.7 - Sun Safety)
(cf. 6142.7 - Physical Education and Activity)
(cf. 6145 - Extracurricular and Cocurricular Activities)
(cf. 6145.2 - Athletic Competition)

Reduction of Vehicle Emissions

In order to reduce public exposure to toxic air contaminants, school bus drivers and other drivers of commercial motor vehicles shall limit unnecessary idling of vehicles at or near schools in accordance with 13 CCR 2480. The Superintendent or designee may also request parents/guardians to turn off their vehicles when they are idling on school grounds and encourage students to walk and/or bicycle to school.

(cf. 3540 - Transportation)
(cf. 3541.1 - Transportation for School-Related Trips)
(cf. 3542 - School Bus Drivers)
(cf. 5142.2 - Safe Routes to School Program)

Any school bus that is diesel-fueled, dual-fueled, or alternative diesel-fueled and has a gross vehicle weight rating over 14,000 pounds shall be equipped with a particulate filter designed to reduce particulate matter emissions, oxides of nitrogen emissions, and other pollutants. (13 CCR 2025)

Drinking Water Safety

The quality and safety of the district's drinking water sources shall be regularly assessed, and drinking fountains shall be regularly cleaned and maintained, to ensure that drinking water consumed at school does not contain dirt, mold, lead, or other impurities or contaminants that may cause serious health concerns.

Whenever any contaminants in the drinking water are determined to be a concern, the Superintendent or designee shall take reasonable steps to identify the source and mitigate any potential problem to ensure the availability of safe drinking water. As needed, the Superintendent or designee shall provide alternative sources of drinking water, such as bottled water or on-site water filtration, to ensure that students have access to fresh drinking water at mealtimes and at other times throughout the day.

(cf. 3550 - Food Service/Child Nutrition Program)
Prevention of Lead Exposure

In addition to testing for the presence of lead in drinking water in district schools, the following steps shall be taken to minimize potential exposure to lead in school facilities:

1. School facilities shall be kept as dust-free and clean as possible.

2. Lead-based paint, lead plumbing and solders, or other potential sources of lead contamination shall not be used in the construction of any new school facility or the modernization or renovation of any existing school facility. (Education Code 32244)

3. Lead exposure hazards shall be evaluated before any renovation or remodeling is begun, and children shall not be allowed in or near buildings in which these activities may create lead dust. Contractors and workers shall comply with state and federal standards related to the handling and disposal of lead debris and the clean-up and containment of dust within the construction area.

4. Lead-based painted surfaces that are in good condition shall be kept intact. If lead-based paint is peeling, flaking, or chalking, contractors or workers shall follow state and federal standards for safe work practices to minimize contamination when removing the paint.

5. Soil with low lead content may be covered with grass, other plantings, concrete, or asphalt. For soil with high lead content, removal and abatement are required.

Any action to abate existing lead hazards shall be taken only by contractors, inspectors, and workers certified by the California Department of Public Health in accordance with 17 CCR 35001-35099. (Education Code 32243)

The Superintendent or designee shall notify parent/guardians, teachers, and staff members if significant risk factors for lead exposure are found. (Education Code 32243)

Prevention of Mercury Exposure

The Superintendent or designee shall identify any mercury-containing products that are present in district facilities and, to the extent possible, shall replace them with mercury-free alternatives.

Any products containing mercury shall be properly disposed at an appropriate hazardous waste collection facility.

Asbestos Management

The Superintendent shall designate an employee who shall ensure that the district's responsibilities related to asbestos inspection and abatement are implemented in accordance with federal and state regulations. This employee shall receive adequate training to perform these duties, including, as necessary, training on the health effects of asbestos; detection, identification,
and assessment of asbestos-containing building materials; options for controlling asbestos-containing building materials; asbestos management programs; and relevant federal and state regulations. (40 CFR 763.84)

(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)

The designated employee shall ensure that the district complies with the following requirements:

1. School facilities shall be inspected for asbestos-containing building materials as necessary in accordance with the following:
   a. Any school building that is leased, acquired, or otherwise used by the district shall be inspected for asbestos-containing building materials prior to its use as a school building, unless exempted by federal regulations. (40 CFR 763.85, 763.99)
   b. At least once every six months, the district shall conduct a periodic surveillance consisting of a visual inspection of each school building that contains or is assumed to contain asbestos-containing building materials. (40 CFR 763.92)
   c. At least once every three years, the district shall conduct a re-inspection of all known or assumed asbestos-containing building materials in each school building. (40 CFR 763.85)

2. Based on the results of the inspection, an appropriate response which is sufficient to protect human health and the environment shall be determined from among the options specified in 40 CFR 763.90. The district may select the least burdensome response, taking into consideration local circumstances, including occupancy and use patterns within the school building and economic concerns such as short-term and long-term costs. (40 CFR 763.90)

3. An asbestos management plan for each school site shall be maintained and regularly updated to keep it current with ongoing operations and maintenance, periodic surveillance, inspection, re-inspection, and response action activities. (15 USC 2643; 40 CFR 763.93)

   The asbestos management plan shall be available for inspection in district and school offices during normal business hours. Parent/guardian, teacher, and employee organizations shall be annually informed of the availability of these plans. (40 CFR 763.84, 763.93)

   (cf. 4112.9/4212.9/4312.9 - Employee Notifications)
   (cf. 5145.6 - Parental Notifications)

4. Staff, students, and parents/guardians shall be informed at least once each school year about any inspections, response actions, and post-response actions, including periodic
re-inspection and surveillance activities, that are planned or in progress.  (40 CFR 763.84)

5. Inspections, re-inspections, periodic surveillance, and response actions, including operations and maintenance, shall be conducted in compliance with state and federal regulations for the protection and safety of workers and all other individuals.  (Education Code 49410.5; 40 CFR 763.84, 763.90)

Asbestos inspection and abatement work, preparation of a management plan, and any maintenance activities that may disturb asbestos-containing building materials, except for emergency repairs or small-scale, short-duration maintenance activities, shall be completed by state-certified asbestos inspectors or contractors.  (15 USC 2646; 40 CFR 763.84, 763.85, 763.91)

6. All custodial and maintenance employees shall be properly trained in accordance with applicable federal and/or state regulations.  (40 CFR 763.84)

All district maintenance and custodial staff who may work in a building that contains asbestos-containing building materials, regardless of whether they are required to work with such materials, shall receive at least two hours of related asbestos awareness training.  New maintenance and custodial staff shall receive such training within 60 days after beginning employment.  Any maintenance or custodial staff who conduct activities that will disturb asbestos-containing building materials shall receive 14 hours of additional training.  The trainings shall address the topics specified in 40 CFR 763.92.  (15 USC 2655; 40 CFR 763.84, 763.92)

7. Short-term workers, such as telephone repair workers, utility workers, or exterminators, who may come in contact with asbestos in a school shall be provided information regarding the locations of known or suspected asbestos-containing building materials.  (40 CFR 763.84)

8. Warning labels shall be posted immediately adjacent to any known or suspected asbestos-containing building material located in routine maintenance areas in accordance with 40 CFR 763.95.  (40 CFR 763.84)

The district shall maintain, in both the district and school offices and for a period of three years, records pertaining to each preventive measure and response action taken; staff training; periodic surveillances conducted; cleaning, operations, and maintenance activities; and any fiber release episode.
